

### **adaptation in cultural evolution pdf**

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction.

### **Evolution - Wikipedia**

Convergent evolution is the independent evolution of similar features in species of different lineages. Convergent evolution creates analogous structures that have similar form or function but were not present in the last common ancestor of those groups.

### **VBrick Revâ,,ç**

Arms race in evolutionary biology just as is the case between two rival nations, positive feedback between two or more evolutionary lineages coevolving in such a way that each, in turn, develops more and more extreme/efficient defenses and weapons in response to the others' attributes.

### **Palaeos: Evolution: Glossary**

This book is dedicated to my best friend and remarkably encouraging husband, Okon, who has supported me throughout this great quest.
