YOU WILL NEED. Sometimes it's hard to tell SCIENCE from MAGIC and this little demonstration is a great example of that. In this experiment you will watch an almost clear liquid suddenly turn dark blue in a flash.

### **Rapid Color Changing Chemistry! - ScienceBob.com**

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.

Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors. Students majoring in chemistry or in one of the interdepartmental majors in chemistry should go to the director of undergraduate studies or the undergraduate program manager in the Department of Chemistry to discuss their program of study.

### **Chemistry < Columbia College | Columbia University**

Atmospheric chemistry is a branch of atmospheric science in which the chemistry of the Earth's atmosphere and that of other planets is studied. It is a multidisciplinary approach of research and draws on environmental chemistry, physics, meteorology, computer modeling, oceanography, geology and volcanology and other disciplines.

6. APPLY CHEMISTRY TO EVERYDAY LIFE: The study of science as a mental exercise is not very useful.

Applying science knowledge to practical everyday problems is the main purpose in studying any science; chemistry, physics, biology, or mathematics; for example.
