A computer simulation (or "sim") is an attempt to model a real-life or hypothetical situation on a computer so that it can be studied to see how the system works.

### **Simulation - Wikipedia**

Here you can peruse the debate that followed the paper presenting the simulation argument. The original paper is here, as are popular synopses, scholarly papers commenting or expanding on or critiquing the first paper, and some replies by the author.

### **The Simulation Argument**

The simulation hypothesis or simulation theory proposes that all of reality, including the earth and the universe, is in fact an artificial simulation, most likely a computer simulation.

### **Simulation hypothesis - Wikipedia**

The purpose of this page is to provide resources in the rapidly growing area computer simulation. This site provides a web-enhanced course on computer systems modelling and simulation, providing modelling tools for simulating complex man-made systems. Topics covered include statistics and probability for simulation, techniques for sensitivity ...
