Space law is the body of law governing space-related activities, encompassing both international and domestic agreements, rules, and principles. Parameters of space law include space exploration, liability for damage, weapons use, rescue efforts, environmental preservation, information sharing, new technologies, and ethics. Other fields of law ...

The European Space Agency (ESA; French: Agence spatiale europ enne, ASE; German: Europ ische Weltraumorganisation) is an intergovernmental organisation of 22 member states dedicated to the exploration of space.

### **European Space Agency - Wikipedia**

The Outer Space Treaty celebrated its 50th birthday last year. This foundational document for international space law was created during a time when government actors conducted most space activities and when projections of space technology to come greatly differed from the reality of space technology today.

Jonathan's Space Home Page. On these pages, you can find extensive data on the history of space

exploration. I've pulled this together over many years; I've compiled a partial list of acknowledgements to the many organizations which have helped me.
